

Enhance the mountain resort experience with heated Dragon Seats®!

Dragon Seats® allow you to create a unique environment anywhere on the resort

Benches can be provided in any length to accommodate any number of individuals. Increased outdoor seating space provides a larger seating capacity – especially important in today's Covid-19 climate! The heat source is clean burning natural gas or propane. Dragon Seats® are compatible with NSAA standards.

Dragon Seats® provide an increased overall customer experience and satisfaction.

“It's like sitting in a hot tub without getting wet!”

The streamlined, fiberglass benches are designed for comfort and quickly rise to a temperature of 90 degrees Fahrenheit.

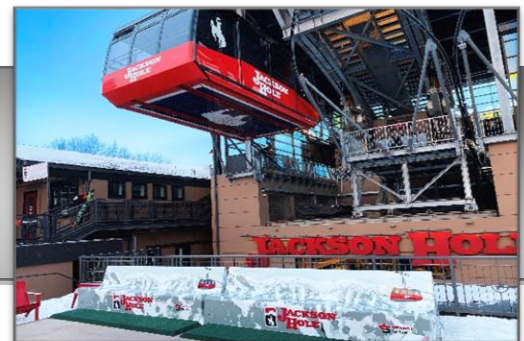

Dragon Seats® also feature pull out, slip resistant heated foot decks and Hot Hats for warming helmets, hats, gloves, boots and other ski equipment.

Dragon Seats® are available in standard white or can be customized with just about any look and feel. The possibilities are endless. Used by skiers, spectators, judges or any other audiences, Dragon Seats® keep people warm, comfortable and on the mountain under any condition, especially extreme conditions.

Dragon Seats® also appear on NCAA and NFL sidelines, including the Super Bowl!

Contact us today and see how Dragon Seats® can help create a unique entertainment venue and increase revenues – upwards of 30% at some resorts!
